DETAILED ACTION

Response to Amendment

1. The amendment received on June 16, 2006 has been entered in full.
2. Applicant's arguments with respect to amended claims as presented in the amendment filed have been fully considered and are persuasive. Therefore, 35 USC 103 rejections on the respective claims have been withdrawn.

Allowable Subject Matter

Reasons of Allowance:

3. Claims 14 - 24 (renumbered as 1-11) are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest combined prior art (Yamaguchi et al., U.S. Patent No. 5,390,003 further in view of Bloomberg et al., U.S. Patent No. 5,048,109) are directed to pattern detection in an binary image. The instant invention further recites the limitation "recognizing partial image based on at least two of: conditions concerning the pixels at opposite vertices, conditions concerning pixels on outermost lines of said pixel-block area, and conditions concerning pixels on outermost lines of said pixel-block area" in claims 14, 20 and 23, which is not taught by the prior art of record. Therefore claims 14, 20 and 23 are allowed. All other claims depending on claims 14, 20 and 23 are allowable at least by dependency on claims 14, 20 and 23.

The reasons of allowance for claims 16-18 should be evident from the previous office action mailed on 02/16/2006, such that claims 16-18 would be allowable if rewritten in independent form

Art Unit: 2624

and applicant's amendment present these claims in independent form. Therefore, claims 16-18 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
